

MAKE SECURITY YOUR PRIORITY

LPS TRAINING PTE LTD
LEARNING PROFESSIONALLY & SYSTEMATICALLY

Company Establishment

LPS Training Services was established in 2016 and since then, it has proven to be a force to reckon in the training of manpower of both private and public establishments. The Organization is the brain child of Mr. Alan Elangovan who was first inspired to create such a lofty platform in 1999. However, due to other exigencies, the goal could not be realized until fifteen years later. The decades of experience in security training that the proprietor brings into the system make the whole difference. The structural organization of the Company testifies to its result-oriented design. Since 2016, LPS Training Services has strategically positioned itself as the behavioral training organization.

The Company has changed the narratives of security training services in Singapore and other neighboring nations. Mr. Alan's rich and unrivaled experience in the sector translates to the phenomenal growth of the Organization. LPS Training Services is focused on solving the many issues its founder had identified before establishing the firm. As a way of ensuring that the Organization does not lose focus, the management of LPS Training Services hired men of substance who understand the vision and mission of the establishment. They have been the force behind the inexplicable growth of the Firm.

QUALITY TRAINING TAILORED TO YOUR NEEDS

An exceptional feature of LPS Training Services is that we study your needs before reeling out the dose; we do not believe that there are two exact problems. The situations might be synonymous but the context can differ. As such, our security trainings are tailored towards the specific needs of clients. The trainings are well-prepared to reflect the exact needs of the clients with the addition of what might be possible future occurrences. The management of the Organization always works against a situation where clients do not feel happy for services rendered. Hence, we always create a mutually-beneficiary situation where all parties feel fulfilled.

MISSION

To be the most sought-after security training organization that is professionally focused on promoting Employee Development and Organizational Effectiveness

VISION

To be a quintessential organization armed with the intellectual weaponry of dealing with every security issue

GOAL

To reach the nooks and crannies of Singapore on the need for people to be security conscious in the next two years

CORE VALUES: OSOTS

- O – Open Mindedness; Have an Open Mind to new innovations
- S – Simplicity; To be as simple as possible.
- O – Optimism; Leading to an optimistic future.
- T – Teamwork; Teamwork to achieve common goals.
- S – Success; Strive for ultimate success.

STRATEGY OF TEACHING

As a Firm that understands the needs of its clients at all times, LPS Training Services does not stick to a particular teaching method; every session is strategically mapped out to reflect the needs of a client. Hence, the management takes into cognizance, an array of factors such as the sector of the client, the form of insecurity faced, employee enthusiasm, context, location and course content before reaching conclusion on the teaching method to use.

However, LPS Training Services is known for practical sessions. The Firm always creates an atmosphere where the problems and solutions of clients are pictorially captured just to arouse their interest in the process.

TRAINER'S PROFILE

Alan Elangovan

Alan Elangovan is the Master Trainer of LPS Training Services and the brains behind the establishment of the security training Firm. He is a cynosure of all eyes and an indisputable teacher and expert on the subject matter. Elangovan is fast becoming an institution in teaching people about security. Without sounding immodest, he has carved a niche for himself in this field and has become an incontrovertible figure that thousands look up to. He is not an overnight bred teacher on security nor did he see the sector as a jackpot yet to be milked. Alan found LPS Training Services out of the irresistible urge to end the myriads of security problems bedeviling every institution.

Elangovan is a security expert and has worked in both the private and public sectors for three consecutive decades. So, he has the raw knowledge, unmatched expertise and unrivaled professionalism to handle any topic relating to security. He is well-ground in the sector and has been sharing in his wealth of knowledge with people of all backgrounds for years. In the last decades, neighboring nations began to seek his training services. "As a way of keeping in touch with reality, Elangovan took many security-related courses to upgrade himself."

TRAINER'S EXPERIENCES

The Master Trainer of LPS Training Services is Mr. Alan, an erudite behavioral analysis with three decades of firsthand experience. He has been equipping civil servants in Singapore, Overseas and the Corporate world on how to enhance and harness their skills for increased productivity. Alan has a whopping three decades of experiences in Criminal Behavioral Studies. **He has imparted over 120,000 people from across the world with his wealth of knowledge.** He completed his studies in Advanced Certificate in Training & Assessment (ACTA) and Diploma in Advance & Continuous Education (DACE).

From experience, Alan understands that detecting a high-quality forgery and other related criminal cases is time-consuming, energy-demanding and intellectually-tasking, and as such, he came up with a quintessential training program tagged Profiling Techniques and Behavioral Courses. Alan recorded another great feat by being contracted to share his wealth of experience with officers in some other countries of the world. Since then, he has been a regular face in seminars conducted for Police, Immigration and Customs officers in Indonesia, Malaysia, Bhutan, Australia, Cambodia, Germany and Denmark. When it obviously became practically impossible to answer all the invitations, the admirers of his training sessions in other ASEAN Countries Malaysia, Cambodia, Myanmar, Vietnam, Australia, Indonesia, Bhutan, Hong Kong, Brunei, Laos, Philippines and Thailand requested to travel down to Singapore to attend his engaging and impactful classes.

His efforts were never allowed to go in vain as he has clinched many laurels and international recognitions. He was then given the title of Master Trainer by Ministry of Home Affairs (Singapore). Other coveted awards that Alan has won are: Commissioner Testimonial for Outstanding Trainer Award and Commendation for Outstanding Trainer Award. Since then, many other laurels have crossed his path. Any trainee that comes under Alan is always fortunate.

TRAINER'S MILESTONE

LOCAL ORGANIZATION

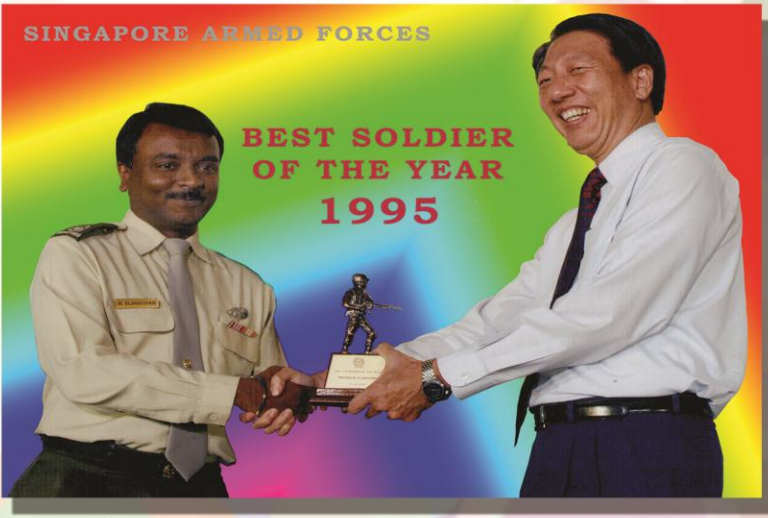

SINGAPORE CUSTOMS

OVERSEAS ORGANIZATION

AWARDS

Full Classroom-Based Programme with Practical Experiences

The conventional method usually employed in teaching all the courses in this Organization is a classroom-based structure. This is to keep the traditional notion of knowledge dissemination as achieved in a school setting. Being in a classroom environment prepares every participant for the job ahead; it stimulates the learning process and propels them psychologically. Also, a classroom structure makes the class easily controllable. The trainer will be able to carry every participant along and identify those who seem to have lost along the way. With this, everyone will surely get value for the money they paid. Courses are designed in a way to ensure that no one is left out in the process of knowledge dissemination.

However, every lecture session is practical-based. The trainers understand that most of what participants were taught in their core courses back at school were mostly theoretical which probably do not have any usefulness in their present affairs. So, in order not to fall in this same pit of ignorance, courses offered by LPS Training Services are mostly practical driven. With this, the atmosphere is always charged for group discussions and contributions from participants. A contributory session ensures that participants discuss their issues as they affect them and solutions are provided extempore.

WHY TRAINING IS IMPORTANT

There is no how anyone can overstate the importance of attending security trainings. It is an open secret that the world is becoming more unsafe on a daily basis. Criminals launch countless attacks through online and offline means; this is an indication of all-round insecurity. If there is no any other planet, we can call ours, then all hands must be on deck to safeguard this. Ensuring a tranquil life will not come on a platter of gold as criminals will not easily leave their heinous acts; they live large on their ill proceeds without working. So, we must be ready to attack with force and destroy every stronghold of criminality. The issue of insecurity is not related to only professional life; it also deals with our personal lives.

Invariably, it means the issue of insecurity is about life and death. But the question is, why should anyone die when there are numerous ways out? LPS Training Services offers different courses that guarantee the safety of your organization and personal life. We teach you how you can always be in charge every affair that concerns you. These trainings are crucial because they give you the key to unlock every plan of the enemy against you.

Trainer's Publication

One of the most important parts of your life that you should never neglect is your emotional relationship. What becomes of your relationship determines the turn every aspect of your life will take. Anyone who wishes to go into any emotional affair should have the understanding of this indisputable fact. If you have a torrid, horrible, and inconsistent affair, it tears your emotions apart, and this in turn affects your work life, how you relate with people, and the mood you carry about at all times.
